

Upgrading Mihalism Multi Host

What you need to know.

If you are running Mihalism Multi Host 5.0.3 or later, then there is an upgrade system built into Mihalism Multi Host. Simply browse to the "Site Settings" page of your Admin Control Panel and look for the message stating that there is a new version available. In the message there is a link to continue to the upgrade screen. Once clicked you will be presented with more information.

If you are running Mihalism Multi Host 5.0.2 or earlier, then upgrade information can be found at: <http://www.mihalism.net/multihost/upgrade/>
