

Special Thanks

Who has helped us the most.

Mihalism Technologies would like to thank the following people, groups, and companies for all their help. This is not a complete list of all contributions, but it is pretty good representation of who has affected us the most.

1. Thank you [Slicehost](#) for fantastic server hosting.
2. Thank you [Google](#) for SVN and download hosting.
2. Thank you [phpBB](#) for having such a fantastic product to gain ideas from for various aspects of Mihalism Multi Host.
3. Thank you [Invision Services](#) for having a coding stanard that is so easy to read that we thought we would replicate.
4. Thank you [Josh D.](#) and [Icy](#) for contributing so many modifications to help improve Mihalism Multi Host for everyone.
5. Thank you Ahmed, [Anthony](#), and [Josh D.](#) for being with Mihalism Multi Host since we opened our doors in 2007 and sticking with us even when things got ugly during 2008 to 2009.
6. Thank you Saad Hamid, founder of [Sizlopedia](#), for developing the theme currently used by Mihalism Multi Host.
7. Thank you everyone that has contributed feature suggestions to help Mihalism Multi Host as great as it currently is.
8. Thank you [PHP](#), [MySQL](#), and [Apache](#) for having such a great platform to develop Mihalism Multi Host apon.
9. Thank you everyone within [PHP's manual](#) notes where we have borrowed various code patches from.
10. Thank you [phpSysinfo](#) for giving us an awesome base to develop the "System Information" page off of.
11. Thank you [Ross Scrivener](#) for the file comparison system that we intergrated into our upgrade system.
